

About IMA-ISAM

Alternative medicines have proved itself as one of the pioneer healer for several ailments without causing any side effects. Alternative medicines have their origin since ancient times, and they were considered as prime medicines. But as the time elapses these medicines got outdated and were replace by modern counterparts – Allopathic drugs etc. Allopathic medicines got deep rooted in the society as all these medicines are experimentally verified and render immediate cure to several pains and diseases.

The nature of immediate relief renders a boom to these medicines. But these medicines have done a lot of harm besides healing. This is a common fact that usually allopathic drugs are not natural and they are derived from strong chemicals which though cure the ailments but creates toxins in the body itself which after sometime leads to some disease or ailment.

The most important part of alternative medicines is that they are cheap and reliable and are fully functional and if the disease is properly diagnosed and the treatment is done from a professional physician it renders exclusive results. Another major factor which fascinates even the modern physicians is that there are almost nil chances of side effects from these medicines.

An alternative form of treatment to conventional medicine, alternative medicine attempts to treat the patient as a whole – the mind, spirit, and body – to prevent diseases and illnesses from occurring and creating a better overall quality of life rather than just a body free of symptoms.

We at IMA – ISAM, help people to discover a natural way of healing, be a part of the natural healing today.
